Request Regarding the Use of Mobile Batteries (Power Bank)

Thank you very much for your continued patronage.

Incidents involving smoke emission and fire caused by mobile batteries have been reported both domestically and internationally.

To ensure the safety and peace of mind of all our guests, we kindly ask for your cooperation regarding the use of mobile batteries in guest rooms as outlined below:

Please refrain from charging mobile batteries when you are not in the room, such as when going out.

When charging mobile devices using a mobile battery, or charging the mobile battery itself using the room's power outlet, please avoid placing it in direct sunlight (e.g., near windows) or on flammable surfaces such as beds or sheets.

While charging, please ensure the device is in a location where you can monitor it at all times to prevent any potential accidents.

During room cleaning for guests staying multiple nights, if any of the above situations are observed, our staff may relocate the mobile battery or stop the charging process to ensure safety.

We sincerely appreciate your understanding and cooperation.
